Experience

Omniyua Private Limited - 15th Mar, 2023 - 15th Aug, 2023

MERN Stack Developer

I worked as an intern at Omniyua Private Limited Company. My core role was to develop their official website. I collaborated with cross-functional teams to ensure seamless integration of front-end and back-end. That website has garnered appreciation from over 5,000 users.

KWS Technology - 15th Sep, 2023 - 31th Mar, 2025

MERN Stack Developer

As a full-time employee at KWS (Khalid bin Walid web service & security) Technology, I was involved in developing the user interface of various websites. Additionally, I collaborate with the backend team to ensure smooth communication between the user interface and the server.

Projects

Research Buddy || [Live Link](#)

About:

It's a website where researchers can find a research buddy to complete their project. All members need to create an account first, after login they can find a project to work with or can post their own project to find a buddy. The project owner can accept/reject others' proposals and create a meeting on this project. Also can track project progress, Team members need to submit work proof and attend every meeting that's created through Research Buddy. The research buddy will send a reminder email 30 minutes before the meeting. However, another user can fund their desired project by PayPal, Payoneer, Stripe, and Bank. All Users can make friends, and can share their thoughts through posts as well.

Technology used:

React JS, React Tailwind CSS, JavaScript, Kitwind.io, React Router Dom, JWT, Mongoose, Node JS, Express JS, Payment Gateway Library (Stripe, PayPal, Payoneer) MongoDB, React-quill.

Omniverse Life || [Live Link](#)

About:

It's a learning website. Users can learn & practice the yogic technique of focused meditation on flame. Learners can enroll in courses by Razorpay payment method. Users can see posted articles and can get references for books and inspirational videos as well. Also can get a fair idea about the Omni Project.

Technology used:

React JS, React Tailwind CSS, JavaScript, DaisyUI, React Router Dom, Node JS, Express JS, Firebase MongoDB.

Work4Cash || [Live Link](#)

About:

Work4Cash is a micro-task marketplace platform where users can earn money by completing small online tasks. The platform connects clients who need quick jobs done with freelancers willing to complete them. It supports tasks like Video Quest, Token Hunter, Text emoji swap, Reverse pattern and many tasks, approval workflows, and real-time earnings tracking.

Technology used:

React JS, Tailwind CSS, JavaScript, React Router Dom, Redux, Node JS, Mongoose, Express JS, JWT.
